

Beach Improvements for *Cladophora sp.* Mitigation

Stacy Hron, Aquatic Biologist
Miller Engineers & Scientists

Improve Water Quality

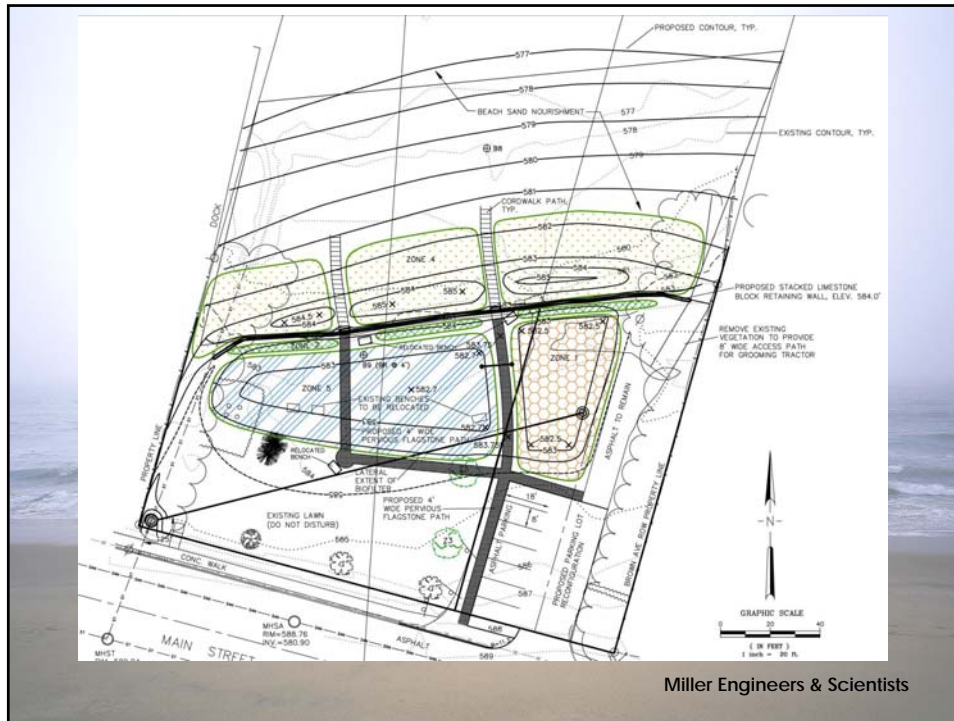

- Remove Point Sources
- Infiltration
- Bioretention
- BMP's
- Reduce Surface Runoff
- Reduce Impervious Surfaces
- Naturalize Vegetation

Miller Engineers & Scientists

Beach Nourishment & Improvements

- **Naturalizing Beach Profile**
 - Removing Hard Surfaces and Obstructions
- **Decreased Swash Zone**
 - Change Grade of Beach to Optimize Clean-up
- **Selective Trapping**
 - Confining Areas of Clean-up
- **Access for Equipment**
