Find a Fellowship

Enriching experiences, exploration of aquatic science in real-world settings, plus mentoring and stipends — find a fellowship that fits your interests. Wisconsin Sea Grant/Water Resources Institute are pleased to highlight these 2019 and 2020 opportunities for graduate students and postgraduates

Dean John A. Knauss Marine Policy Fellowship seagrant.noaa.gov/Knauss

This competitive Sea Grant program provides a one-year internship either on Capitol Hill or with a federal agency in the Washington, D.C., area. It is strongly recommended that applicants set up a meeting with the Wisconsin Sea Grant Director James Hurley (via terri@aqu.wisc.edu) well in advance of the Feb. 22, 2019, application deadline.

National Marine Fisheries Service/Sea Grant Joint Graduate Fellowship Program seagrant.noaa.gov/NMFS-SG-Fellowship

This two- or three-year fellowship is open to U.S. citizens who are graduate students enrolled in Ph.D. degree programs in academic institutions in the United States and its territories and are interested in population and ecosystem dynamics of living marine resources and the development and implementation of quantitative methods for assessing their status. Apply by Jan. 30, 2019.

NOAA Coastal Management Fellowship coast.noaa.gov/fellowship

This two-year fellowship provides on-the-job education and training opportunities in coastal resource management and policy for post-graduates. Apply by Jan. 18, 2019.

J. Philip Keillor Wisconsin Sea Grant Fellowship

Wisconsin Sea Grant will partner with a state agency to offer a fellowship for postgraduates, named in honor of Phil Keillor, an esteemed Great Lakes coastal engineer who worked nearly 30 years for Wisconsin Sea Grant. This one-year fellowship provides on-the-job education and training opportunities in coastal resource management and policy, hosted at a state agency. Check go.wisc.edu/7x4056 for more information in early 2019.

Wisconsin Water Resources Policy Fellowship

The University of Wisconsin Water Resources Institute will team up with a state agency to provide this one-year fellowship for postgraduates. This opportunity provides on-the-job training in water resources, science and policy. Check wri.wisc.edu for more information in early 2019.

Further details can be found at the “students” tab at seagrant.wisc.edu.
